Correctly categorizing animal exposures

Category	Description	
I	 Touching or feeding animals	 Licks on unbroken skin (no scratches or abrasions)
II	 Nibbling (soft bite) of skin (skin bruised but NOT bleeding)	 Minor scratches or abrasion WITHOUT bleeding
III	 Any wound that bleeds after exposure (regardless of amount of blood)	 Any time saliva comes into contact with mucous membranes or broken skin (open wounds)
All bat exposures (regardless of the severity of the wound)		

Icons scanned from Flickr.com/WHO/WHO/WHO.com

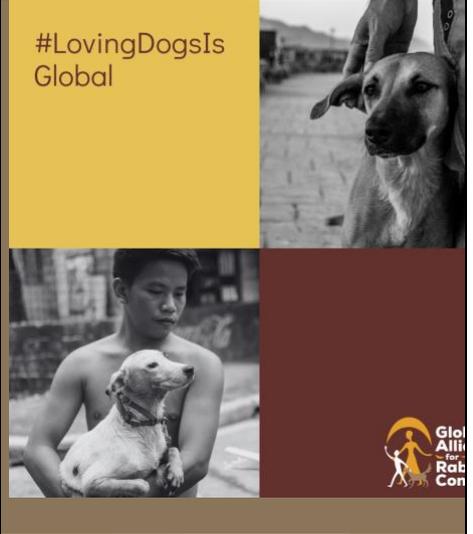

Wed. 6th	#ClimateChange can have an effect on the spread of #rabies because of the movement of animals into new areas, easily linking environmental health with human and animal well-being <a href="https://hubs.ly/Q01RJT0Z0">https://hubs.ly/Q01RJT0Z0</a> #OneHealth4All	#ClimateChange can have an effect on the spread of #rabies because of the movement of animals into new areas, easily linking environmental health with human and animal well-being <a href="https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7842100/">https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7842100/</a> #OneHealth4All	#ClimateChange can have an effect on the spread of #rabies because of the movement of animals into new areas, easily linking environmental health with human and animal well-being <a href="https://hubs.ly/Q01RJTbM0">https://hubs.ly/Q01RJTbM0</a> #OneHealth4All	#ClimateChange can have an effect on the spread of #rabies because of the movement of animals into new areas, easily linking environmental health with human and animal well-being <a href="https://hubs.ly/Q01RJV650">https://hubs.ly/Q01RJV650</a> #OneHealth4All	  <p>#WorldRabiesDay</p>  <p>#OneHealth4All</p>
Thu. 7th	It may seem like nothing bad can happen when you are on holiday but #rabies is a reality in many regions across the world. <p>Fri. 22nd</p>	<p>#OneHealth is becoming increasingly entrenched in disease control programs. COVID-19 and antimicrobial resistance have shown the world just how the health of humans, animals and the environment are inextricably linked. #Rabies is no different and requires collaboration across all sectors and on all levels if we are to #EndRabiesNow. Read more <a href="https://hubs.ly/Q01RVykR0">https://hubs.ly/Q01RVykR0</a> #OneHealth4All</p>	<p>#OneHealth is becoming increasingly entrenched in disease control programs.
