

Advance your knowledge  
of human rabies prevention  
and patient care with the

# RABIES HEALTHCARE CERTIFICATE (RHC)

*Ending Rabies. Empowering Communities.*

## WHO CAN TAKE THIS COURSE?

Any REC graduate, particularly human healthcare professionals.

The course is a profession-specific course developed to teach or refresh professionals working in the human healthcare sector regarding aspects of human rabies and its prevention. This includes the management of potential rabies virus exposure cases; administration of rabies biologics; the clinical diagnosis of suspect human rabies cases and the laboratory investigation of suspect rabies cases.

## WHAT DOES IT COVER?

- How do you prevent rabies in humans?
- Rabies pre-exposure prophylaxis (PrEP) for humans.
- What to do when a potentially exposed individual presents at a healthcare facility.
- Special considerations for rabies post-exposure prophylaxis (PEP) in humans.
- Clinical presentation and management of rabies in humans.
- Laboratory confirmation of a human rabies case.
- Case scenarios.

## THE COURSE IS:

- Free.
- Self-paced.
- Available online.
- Available to download.

## BENEFITS:

- Skills and knowledge gained.
- Increased credibility.
- Certificate upon completion.
