

Country representative introduction

[Swaziland]

Veterinary: [Dr. Bavukile Kunene]

Medical: [Dr. Mbuso Sihlongonyane]

Introduction

- Bavukile Kunene
- Veterinary Officer, Field Services Ministry of Agriculture
- Mbuso Sihlongonyane,
- Medical Officer, Ministry of Health

Expectations of the workshop

- Practical experiences on the implementation of SARE in rabies control programs.
- Intersectoral rabies data collection strategies and analysis methods.
- How to approach a Rabies stakeholders consultation?

Significance of our work

- As rabies has no cure, preventive measures are all that can be offered in saving lives and decreasing the burden caused by rabies.
- Dog vaccinations and rabies awareness programs, jointly with treatments of dog bite victims and PEP ensure that no citizen in the country is lost to rabies.
