

Correctly categorizing animal exposures

Category	Description	
I	 <p data-bbox="320 945 887 1001">Touching or feeding animals</p>	 <p data-bbox="967 928 1509 1018">Licks on unbroken skin (no scratches or abrasions)</p>
II	 <p data-bbox="352 1549 863 1695">Nibbling (soft bite) of skin (skin bruised but NOT bleeding)</p>	 <p data-bbox="959 1585 1541 1683">Minor scratches or abrasions WITHOUT bleeding</p>
III	 <p data-bbox="336 2121 863 2267">Any wound that bleeds after exposure (regardless of amount of blood)</p>	 <p data-bbox="967 2060 1517 2267">Any time saliva comes into contact with mucous membranes or broken skin (open wounds)</p>
All bat exposures (regardless of the severity of the wound)
